

## 2008 Review – Spring / Summer Production

Before all thoughts from this season have been lost, we have compiled a review of the products that were available, for the most part, this season.

We found that sales for some lines went on a lot later than we had expected and are using this review to try to anticipate a balance between demand and availability for 2009.

If you have any suggestions or comments then please let us know at the end of the review or speak to us here at the Nursery.

### 9cm Edibles -

Feb	March	April	May	June	July
-----	-------	-------	-----	------	------
